

[ophthalmological ultrasound system / pachymeter / ultrasound biometer / ultrasound pachymetry - UD-800](#)

VIDEO

Characteristics

- Type of instrument:
ophthalmological ultrasound system, pachymeter, ultrasound biometer
- Examination:
ultrasound pachymetry
- Ergonomics:
table

Description

MODULAR A/B-SCAN SYSTEM
UD-800

Modular configurable
Internal database
Biometer A-scan 10 MHz
10 MHz 2-ring array B-probe
Pachymetry (optional)
UBM 40 MHz B-probe (optional)
A-diagnostic probe (optional)
